COLORJET: INDIA'S LARGEST MANUFACTURER OF DIGITAL INKJET PRINTERS

Whatever you can imagine, ColorJet has the gear to transform your imagination into reality. Since its inception in 1995, the ColorJet Group has been powered by over 1500 senior man-years of intensive digital print technology experience. As the leader in Inkjet technology, we offer state-of-the-art large-format printing solutions designed with exceptional speed, flexibility and quality.

The reliability and performance of ColorJet Group, the largest manufacturer of digital inkjet printers, can be seen and experienced in 50 countries worldwide. ColorJet provides versatile, high-quality, and heavy-duty digital signage printers to print on an astonishing range of substrates and take signage printing businesses to the next level.

The company maintains its operations via two manufacturing facilities and sales offices spread across seven countries, including India, Sri Lanka, Saudi, UAE and China. To date, ColorJet has installed and implemented over 6,000 of its printing solutions and products across 450 cities worldwide, backed by a strong 278 members team, of which almost 100 are in technical related functions. No wonder that apart from leading professionals, the Government of India has also recognized the technological innovation strength of ColorJet's R&D department.

With dependable, high quality and robust output, ColorJet users deliver time and again.
Our capabilities ensure maximum business and growth for all associated with us.

OPTIVALUE

ColorJet **VULCAN** is a high speed 3.2 m roll-to-roll UV LED Inkjet printer. This back to back printing machine is used for printing banners, signage, billboards, terminal graphics, bus shelters, tradeshow graphics, window displays, backlit, wall graphics, building wraps, POP and POS graphics, etc. It is equipped with the capability to print 3-layer, 4-layer, and 5-layer printing. LED lamps and UV inks list this industrial UV printing machine.

Our UV roll to roll printer **VULCAN** let you experience unprecedented print speed, high-quality, and lucrative total cost of ownership. Built on a robust industrial production platform and never seen before automation, this industrial UV printing machine can print high volumes and withstands heavy-duty cycles without compromising on quality.

VERVE HYBRID

UV FLATBED/ROLL-TO-ROLL PRINTER

VERVE HYBRID (3220/3225 SERIES)

DELIVERS SUPER SPEED VERSATILE UV PERFORMANCE

COLORJET
VERVE HYBRID

VERVE HYBRID is a 3.2 M UV Flatbed Roll to Roll Hybrid printer that delivers fast and versatile UV performance. This UV printer enables super speed production and is engineered for high-endurance work and low running costs to deliver high-quality print for a long time.

FEATURES FOR HIGHER PRODUCTIVITY

> Extra wide print width – 3.2m
> Proprietary AIVC jetting technology
> Variable drop technology
> Accurate and reliable high speed printing
> Large range of printable media
> Solid build quality, low maintenance

ADDITIONAL FEATURES

> Precisely engineered using 3D CNC Machinery > Intelligent Media Thickness System > Anti-Crash Sensor > Advanced RIP for faster processing & better colour management > Fully customised printer settings for enhanced print results > Industrial grade jetting assembly > Consistent print quality through the life of printhead > System designed to use white ink as additional color > Adjustable UV lamp power enables better drying control > Vacuum system can be adjusted in four zones > Specially formulated inks with wider color gamut & higher density.

BURGER

Introducing the SoniQ Duo, a groundbreaking 3.2-meter Solvent Printer designed to revolutionize indoor and outdoor signage production. Equipped with 8 high-speed KM heads, it sets a new benchmark for upgradability, guaranteeing peak performance well into the future. Delivering breathtaking quality at an impressive speed of 2217 sqft/hr, it caters perfectly to both indoor and outdoor requirements.

SONIQ DUO PIONEERING DEVELOPMENTS:

- **Efficient IR Drying System**
- **Head Upgradability With 8 Heads**
- **Advanced Capping Station**
- **3-way Heating Mechanism**
- **Suction- Boost Technology**

SLEEK, COMPACT & FUTURISTIC PRINTER

SONIQ i
COLORJET

SoniQ i delivers excellent print quality at an ultra-fast speed of 1232 sqft/hr and offers maximum performance at a minimum investment.
The heavy-duty forefront industrial print heads of the machine are engineered for lasting performance. With 3.2 mtr roll capability to accommodate every media size, it is also an excellent alternative for huge savings on inks & time with pressure purge for individual colors.

PREMIUM FEATURES:

FGP (FOREFRONT GANTRY PRECISION) TECHNOLOGY

SoniQi comes with unmatched FGP technology, which ensures extremely less deviation between jet to bed distance (<0.1mm) over the entire printing span and maintains consistent print quality.

EDGE EXCELLENCE TECHNOLOGY

Enhance Printing Precision on the Border of the Media and helps in the smooth change over of carriage direction, leading to less jerk and lesser wear and tear.

DIGITAL VISCOSITY OPTIMIZATION

Optimized with digital observation of Ink viscosity curve, which helps in maintaining a stable waveform of jetting and ensures constant print quality.

PRESSURE DECLOGGER

SoniQ i offers a fifth button for **declogging,** which helps in maintaining pressure for efficient cleaning and reducing ink wastage.

NEPTUNE PLUS

NEPTUNE PLUS is a 3.2 Metre roll-to-roll solvent printer that combines high quality and high production speed. This newly launched NEPTUNE PLUS is ColorJet's signature flagship product. With its well-renowned robust body combined with improvised & advanced features, it offers very high value for money in its class and will be an unending success story for all its users. It is based on industrial Drop-on-Demand Japanese print head technology.

NEPTUNE PLUS is the finest solution for outdoor advertising applications customers, who need the quality prints at a very high speed. It is ideal for sign shops and commercial printers seeking to upgrade the quality and offer greater versatility and speed at an optimally cost-effective price. It is also an excellent solution for corporate in-house production of exhibition graphics, posters, signage, billboards, etc.

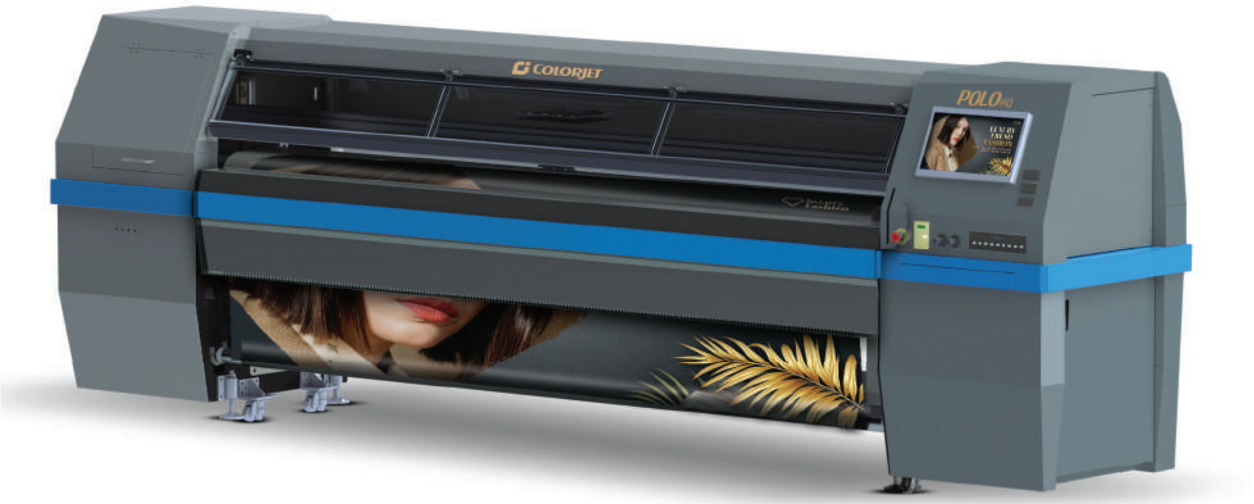
HIGH SPEED ECO-SOLVENT INDUSTRIAL PRINTER

BUILT TO DELIVER GREAT QUALITY PRINTS QUICKLY



POLO HQ, the high-speed Industrial grade eco-solvent printer is built for speed & quality. At a speed of 1175 sqft/hr, **POLO HQ** displays quality print for mass production supported by IR based effective evaporative drying system to meet the high volume requirement. The 3.2 mtr roll-to-roll eco-solvent printer based on industrial grade jetting assembly ensures accuracy at high speed. The environment-friendly **POLO HQ** is built on heavy duty structure made with high mechanical precision standard to meet the growing requirement of those who want speed with quality.

GREEN TECH INK MECHANISM GREENTECH™

Polo HQ is highly eco-friendly and is based on ColorJet's **Greentech** Mechanism, which adheres to international print standards and environmental norms. Born from ColorJet's commitment to green printing, Greentech leverages advanced technology to use eco-solvent inks, ensuring low chemical emissions and reduced environmental and health risks. This approach guarantees optimal print solutions that meet both industry and eco-friendly requirements.

Disclaimer: The speed and output of all machines have been tested with the usage of ColorJet inks. The organization recommends ColorJet inks to be used on ColorJet machines for optimum productivity and maximum profits. The availability of inks are country specific.

HIGH QUALITY, COLOR CONSISTENT DIGITAL PRINTING WITH COLORJET PROPRIETARY TECHNOLOGIES

OPTIVALUE BUILD

Digital printers are the business lifeline of print solution providers. This makes the optimal life of the machine's entry and exit across a heavy utilisation and new technology development time-cycle critical.

All Colorjet digital printers are designed & engineered through 3D simulation processes at Colorjet's Innovation Laboratories and built optimally, to deliver phenomenal business value, income and an optimal exit point to customers.

- **Built from 100% galvanized steel**
- Bult to ensure accuracy of every micron
- **Have functional structures designed & manufactured from aeronautical - grade hard-anodized aluminium**
- Optimal performance from concept to design to prototype to production stages
- **8 stage preparation process of design, chemical treatment, powder coating and paint**
- QA processes to ensure error-free performance
- **Highest standard of aluminium and CNC**

xactcolor

In XACTCOLOR section replace first sentence with "Xactcolor™ was born after extensive research as a response to a problem that emerged from the market and keep updated in pushing the limits. Climate and weather condition-wise, India is a very diverse country. Temperatures from subzero to 50 degrees celsius and humidity from high dew point to absolutely arid. These diverse climatic conditions influence ink and media to behave differently across different temperature and humidity zones.

- **Synchronised print-head and software solution**
- Variable drop technology

The Colorjet R&D team created XACTCOLOR to reconcile all usage conditions through printhead, mechanical capability and software technologies to deliver consistent colour reproduction and detail under all applications and geographies.
